- Familiarize yourself with grass-specific terminology
- Identify grasses by using The Jepson Manual, 2nd ed. dichotomous key
- Recognize the basic groups and common species
- Build a “collection” of identified samples

A class syllabus, 10x hand lenses, and basic keys from the Jepson Manual website provided. In the afternoon we will wander in adjacent serpentine prairie and annual grasslands to see grasses in the field and round out this full day of learning.

- Morning coffee and snacks along with a bag lunch are included.
