

Introduction to Grasslands Soils:

Understanding how your soils are the foundation of your project

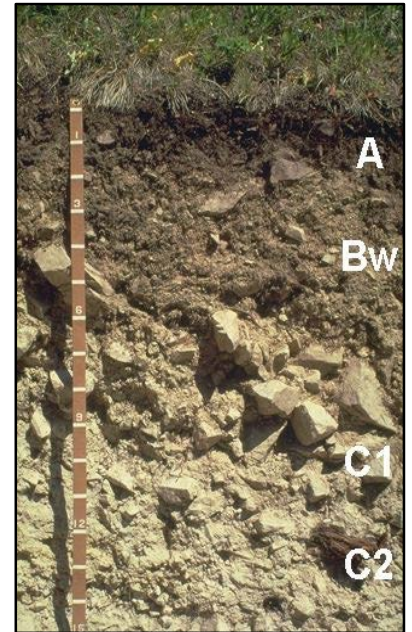

Friday, Oct 19, 2018, 9:00 am to 4:00 pm

Mitsui Ranch, Petaluma CA

\$75/CNGA members, \$100/Non-members, \$85/Students with ID
Register ASAP - Space is limited to 20 maximum registrants

Soils are a plant's best friend! Build your skills with soil scientist Vic Claassen:

- Understand California's grassland soil ecology
- Learn contributing aspects of soil function including: hydrology, infiltration and moisture retention, soil nutrients and microbial activity.
- Introduction to different soil analytical methods and potential treatments.

Above: Vic Claassen teaching from a soil pit
Right: Featured Soils: Inceptisols and Vertisols

A morning classroom instruction session is followed by an afternoon in the field to round out this full day of learning.

- Morning coffee and snacks are included.
- Please bring a sack lunch, water, snacks, sunscreen, hat and sturdy shoes.
- Carpooling is recommended. Directions and carpool information will be sent to registered attendees.

Instructor: **Vic Claassen**, PhD., Soil Scientist, UC Davis Department of Land, Air and Water Resources
