

Introduction to Grasslands Soils:

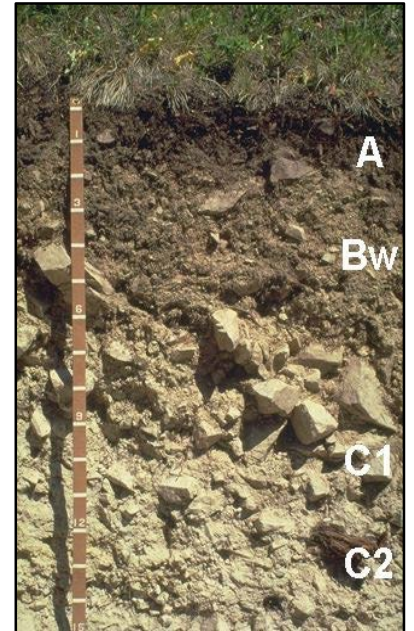

Understanding how your soils are the foundation of your project

Friday, November 2, 2018, 9:00 am to 4:00 pm
 Joe A. Heidrick Western Center for Agricultural Equipment
 154 Hills Drive, UC Davis

\$75/CNGA members, \$100/Non-members, \$85/Students with ID

Soils are a plant's best friend! Build your skills with soil scientist Vic Claassen

- Understand California's grassland soil ecology
- Learn contributing aspects of soil function including: hydrology, infiltration and moisture retention, soil nutrients and microbial activity.
- Introduction to different soil analytical methods and potential treatments.

Above: Vic Claassen teaching from a soil pit
 Right: Featured Soils: Inceptisols and Vertisols

The morning classroom session will be followed by an afternoon in the field at Russell Ranch, UCD Putah Creek Riparian Reserve, looking at different soil structures.

- Morning coffee and snacks are included.
- Please bring a sack lunch, water, snacks, sunscreen, hat and sturdy shoes.
- Directions will be sent to registered attendees.

Instructor: **Vic Claassen**, PhD., Soil Scientist, UC Davis Department of Land, Air and Water Resources

CNGA Soils Workshop, Yolo Co. / Nov. 2, 2018
