

PLANNED GRAZING: HOW TO GROW SOIL, GRASSLAND HEALTH & PROFIT

A Two-Day Workshop for Ranchers & Managers
Wednesday - Thursday, January 30-31, 2019 – 9:00 am to 5:00 pm
Location: Paicines Ranch, Paicines, CA

Land is your life support system – sound planning means everything. Build drought & fire resilience, biodiversity & SOIL CARBON. Increase effective rainfall!!!

Learn how to develop and implement a successful grazing plan. This powerful step-by-step grazing planning process developed by **ALLAN SAVORY** is good for your grass, livestock, wildlife, soil, monitoring, and especially your wallet.

- Morning sessions focus on new principles, simple tools & the planning chart; afternoons are spent outside on a working ranch.
- Learn from people who use this grazing planning process to build soil grassland health, animal performance & profit.
- Learn how to accelerate improvements in annual grassland, native perennial grassland, oak woodland, irrigated pasture, wetlands and stream-side habitats using livestock.
- Learn how to stop over-grazing plants and over-resting land. Learn the power of high animal impact to more quickly create the change you want.
- Learn by doing. Wear sturdy walking shoes and bring your rain gear!!!

Instructor: Richard King, 27 yrs. of experience practicing holistic planned grazing on his own ranch and helping others learn. Retired from USDA-NRCS. Certified Professional Educator with both Holistic Management International and the Savory Institute. Certified Professional with CA State Board of Forestry & Fire Protection and Society for Range Management.

Workshop Questions? Contact: Richard King at (707) 769-1490 or (707) 217-2308 cell or rking1675@gmail.com

Register online www.cnga.org

Registration: \$300 (\$275 for CNGA members).

Includes: Morning refreshments, lunch each day, and course materials. SRM CEU credits available.

To register by phone or mail, contact Diana Jeffery at CNGA (530) 902-6009 or email at admin@cnga.org.

Co-Sponsored by:

Paicines Ranch is a historic 7,600-acre ranch located one hour south of San Jose in central California. This diverse landscape is managed in partnership with nature and livestock to build healthy soil, increase biodiversity, and create abundance.

The mission of the California Native Grasslands Association is to promote, preserve, and restore the diversity of California's native grasses and grassland ecosystems through education, advocacy, research, and stewardship.
